ABOUT

I'm a software developer from Antwerp, Belgium who's lived in Stavanger, Norway for 4.5 wonderful years. As a developer, I'm a generalist and have experience with both frontend and backend development. I love trying out any new technology that arises and am particularly fond of anything to do with webdevelopment.
I have contributed to and am interested in FOSS.

WORK EXPERIENCE

Software development consultant — Self-employed

Oct 2022 – Present
⚲ *Worldwide*

Activities: Full stack software developer

Senior Developer (freelance) — SEAM

Oct 2023 – Jan 2024
⚲ *Haugesund, Norway (Remote)*

Activities: Plotting historical data from equipment on a large vessel to graphs using Vue & Chart.js
Improving the performance of the application by optimizing the InfluxDB queries

Used technologies: Typescript, Vue, Electron, Node.js, InfluxDB, Chart.js

Senior Frontend Developer (freelance) — DMaze (Proactima)

Jun 2023 – Sep 2023
⚲ *Stavanger, Norway (Remote)*

Activities: I assisted the internal development team in implementing a solution to manage taxonomies that have a dynamic data format.
This involved using React Query and Tanstack Table to implement a dynamic, editable table.
The UI was implemented using a customized Chakra UI component library.

Used technologies: Typescript, React, Jest

Senior Developer & Architect (freelance) — Campall AS

Oct 2022 – May 2023
⚲ *Stavanger, Norway (Remote)*

Activities: Liaison between client and the rest of the development team, prioritizing based on time & budget constraints.
Guide junior backend developer. Chose technologies based on the scalability requirements of the client.
Developed the frontend part of the application and integration with payment solutions.

Used technologies: Next.js, React, Responsive design, REST

Secondary school teacher (IT) & ICT coordinator — Scheppersinstituut Deurne & Antwerpen

Sep 2019 – Aug 2022
⚲ *Antwerp, Belgium*

Activities: Teaching & evaluating basic IT skills to students aged 13-16. 130 students yearly.
Part of a small team of 3-4 people managing the IT infrastructure across 3 campuses.

Software developer & Mentor — Take the Lead

Jan 2019 – May 2019
⚲ *Antwerp, Belgium*

Activities: Software developer on an SPA using React + TS, mentoring junior developers & interns.

Used technologies: Typescript, React, Redux, Git

Lead frontend developer (1.5y), Frontend Developer (3y) — Altibox AS

Sep 2014 – Mar 2019
⚲ *Stavanger, Norway*

Activities: Frontend developer on the Altibox website (http://altibox.no).
- Created new and updated existing selfservice applications to either order new products or manage settings for owned products.
- Streamlining/modernizing of development process bi introducing buid tools & templating, and later by introducing React.
- Migrating the Altibox website CMS from Liferay to Wordpress.
Became Lead Frontend Developer:
- Implemented the new Web-TV for Altibox (https://tv.altibox.no) using Typescript & React
- Introduced pull request workflow, main reviewer of frontend code
- Mentoring co-workers in learning React & Typescript

Used technologies: Typescript, React, Redux, Docker, Git, node.js, Javascript ES6, Twitter bootstrap, Wordpress, Handlebars.js, Gulp

Software developer — Unbrace

Jul 2013 – Aug 2014
⚲ *Antwerp, Belgium*

Activities: All-round developer on BVC Spot Buy Center, implemented large parts of the Javascript frontend application and RESTful webservices backend.

Used technologies: ServiceStack (.NET), Backbone, Backbone.Marionette, RavenDB, RequireJS, HTML5, CSS3, Twitter bootstrap, responsive design, Git

Software developer — Item Solutions

Sep 2011 – Jun 2013

📍 *Antwerp, Belgium*

Activities: Main developer on Aertssen WOP Drag & Drop, a time schedule tool for a contractor who is active worldwide.
Team member on various other projects.

Used technologies: .NET (3.5, 4, 4.5), Silverlight (3-5), T-SQL, Oracle, (N)Hibernate, Dapper, RhinoMocks, Moq, KnockoutJS, RequireJS, jQuery, Spring, Spring MVC, SVN

EDUCATION

Bachelor in Secondary Education (Reduced duration) — Karel de Grote University College

Sep 2019 – Jun 2022

📍 *Antwerp, Belgium*

Core courses: Didactics, Creating lesson plans

Introduction to Functional Programming in OCaml — Université Paris Diderot

Nov 2018 – Sep 2018

99%

Basic Life Support Adults + AED usage — Lifeguard

Mar 2019 – Mar 2019

4 hours course

HOBBIES

Besides at my work I also love programming in my spare time. For some examples of code I've written you can take a look at my Gitlab or Github accounts. Links to these can be found on my personal website if you're holding the paper version of my resume (the pdf of which is automatically generated from a yaml file after pushing to my resume repository :)).

Besides sitting behind the computer I've also hitchhiked about 5000 km accross Europe and am an amateur gardener.
I love hiking and have hiked some of Norway's best known landmarks like Preikestolen, Kjeragbolten and Trolltunga.
Sometimes I try out new things just because they sound interesting like pinhole photography, salsa dancing or brewing my own beer.
